

Additional Days School Year (ADSY)

Background: House Bill 3

- From the 2019 legislative session, Section 1.014 of House Bill (HB) 3 requires the commissioner to adjust the average daily attendance of a school district or open-enrollment charter school under Section 48.005 that offers **up to an additional 30 days of half-day instruction for students enrolled in prekindergarten through fifth grade.** This will be done by increasing the average daily attendance of the qualifying district or school by the amount that results from the quotient of the sum of attendance by students for each of the 30 additional instructional days of half-day instruction that are provided divided by 180.
- The regular school year calendar must include 180 instructional days before funding for the ADSY days (up to 30 additional days) will be allowed.
- ADSY may begin on September 1, 2020 and days in the program may be interspersed throughout the 2020 - 2021 school year and/or at the end of the school year following the last day of regular instruction.
- In addition to three (3) new data elements, regular attendance and staff data will also be **included in the PEIMS Extended Year submission.**
